Perennials, Ornamentals

1927

THE
Langlois Floral Garden
E. C. LANGLOIS

Licensed and Bonded Nurseryman
R. 1, BOX 68, VANCOUVER, WASH.

GENERAL INFORMATION

Order early. All orders are filled in rotation. Ordering early will insure the reservation of varieties that later may be sold out.

Substitutions. We do not substitute. If we are sold out of any stock on your order, your money will be refunded. We would suggest however the naming of a second choice.

Forwarding. We deliver postpaid to any postoffice in the United States Gladiolus bulbs, Dahlia tubers and perennial plants except as noted. Shrubs, heavy plants and plants that cannot be readily sent by mail will be sent by express, purchaser paying charges. Stock is shipped as soon after order is received as conditions permit or at proper planting time. Orders sent out of season, we reserve the right to hold and send at proper planting time.

Guarantee. We guarantee all bulbs and plants sent out by us to be true to name; to arrive safely and to be in a condition to grow on arrival and to be free from injurious insects and diseases, and if any stock should prove to be untrue to name, or should prove to be unsatisfactory, on arrival, we will replace or refund the purchase price. Most of the failures with bulbs and plants are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, improper planting, etc., which renders it impossible for us to guarantee successes. We take all possible care to supply only such stock as will, under reasonable care, produce satisfactory results but we can give no guarantee as to the productiveness of any bulbs or plants we send out and will not be in any way responsible for the crop. All orders are filled on this basis only. It must however be plain to everyone that it is our best interests to send out only such stock as will not only prove true to description but grow also.

Terms. Cash with order unless parties are known to us. No goods sent C.O.D. unless at least 25% of purchase price accompanies order.

Remittances should be made by bank draft, check, postoffice money order, express order or registered letter. Do not send money in letter unless registered. Postage stamps accepted up to \$1.00.

No orders of less than \$1.00 accepted for mailing.

Errors. We exercise the utmost care in filling orders striving to do a little more than we offer, yet sometimes errors occur, in which event we wish to be promptly notified of the fact and will promptly make such corrections as will be satisfactory. Please keep copies of your order for comparison.

Name and Address. Please remember to write your NAME, POST OFFICE, COUNTY and STATE; also give STREET NUMBER or P. O. BOX as plainly as possible.

Reference. Vancouver National Bank, Vancouver, Wash.
This catalogue cancels all previous price lists.

GLADIOLUS

Culture: The Gladiolus will thrive in any good soil. They do best in a sunny location. They should be planted in the Spring after danger of frost is over, never in the Fall. Plant in rows 18 inches apart, four to six inches apart in the rows and four to six inches deep depending on the character of the soil. Or they may be planted in beds six inches apart, each way and from four to six inches deep. Do not use fertilizer at time of planting. It is better to use a commercial fertilizer, as sheep guano, as a top dressing and work it into the soil. The ground should be kept well cultivated at all times and the plants need plenty of water after the flower spikes begin to appear. In watering, give the ground a good soaking. When cutting flowers, leave at least four leaves to develop the bulb. The bulbs are ready to take up about six weeks after blooming regardless as to whether the top has turned yellow or frosted or not. Dig the bulbs on a bright day, cut off the top immediately close to the bulb, allow to dry and store in shallow trays in a cool, dry place, free from frost.

Our bulbs are clean, healthy, young and vigorous and will give you splendid results with reasonable care. Prices are for large blooming sized bulbs, 1¼ inches in diameter and up. We do not substitute one variety for another but reserve the right to send equal value in the next smaller size we have if sold out of the size ordered. We prepay postage.

We give liberal count and extras on orders of reasonable size. A hint may get just the extra you want.

Albania—Large flowers of pure glistering white.7c

Allen V. Bunce—(Bill) Orange yellow lined with claret.\$1.00

Alice Tiplady—(Prim) Orange saffron, early, very fine. A very popular variety. 5c

Anna Eberius—Large flowers, velvety purple deeper in the throat. A very beautiful and popular variety. 5c

Black Pansy—(K) Richest dark red with a beautiful pansy-like throat. 7c

Break O'Day—(Bill) Immense pink blossoms with soft creamy blotches on lower petals. Extra fine. Highly recommended. \$3.00

Byron J. Hulot—Dark velvety purple, tall.5c

Butterfly—(Prim). Large pale salmon yellow, ruffed.5c

Byron L. Smith—Delicate lavender pink with silvery suffusions, yellow in throat, a refined variety.6c

Capt. Boynton—(Boynton) Tall straight plant, large wide open, lavender blue on white ground, purplish blotch on lower petals. Several open, strong grower.25c

Carmen Sylva—Large, tall, very fine white.6c

Challenger—Giant, dark rich velvety red, solid color. Large, vigorous plant. An extra fine variety.....15c

Cowee's Scarlet Wonder—Immense clear red. Many blooms six inches across. A bunch of this makes a wonderful showing.25c

Crinkles—Deep peach pink, very heavily ruffed.25c

Culebra—White tinged salmon, ruffed, beautiful throat markings.....5c

Delphi—Light red with gold markings in the throat, very late.8c

Diana—Best commercial red.6c

Diener's American Beauty—American Beauty Rose color with creamy throat, large flowers and many open at a time.10c

Dr. F. E. Bennett—Firey red. New. Flowers often six inches across. A dazzler. 50c

Dr. J. H. Neeley—(K)—Tall large white delicately tinted pink, cream in throat. Several open.15c

Dr. Van Fleet—Tall early pink with yellow throat.10c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

- Duchess of York**—(H) Tall bluish purple. Similar in color to Baron J. Hulot but flowers are larger. A good one and in great demand.....25c
- E. J. Shalor**—Tall, rose pink, ruffed. 6c
- Elf**—Lemon yellow buds opening white with yellow throat.6c
- Elizabeth Tabor**—(H) An early pink quite similar to Mrs. Frank Pendleton but prettier. Good commercial variety. 20c
- Eugene Lefebvre**—(Lemoine) A giant variety, beautifully formed flowers of bright pink, throat spotted and dotted with purplish amaranth and cream.25c
- Evelyn Kirkland**—(Austin) Tall straight bright rose pink shading to darker pink in the throat, beautiful rose red blotch on lower petals. An old variety but still a very good one. 6c
- Fern Kyle**—Large creamy white flowers, ruffed, vigorous grower. 20c
- General Langlois**—(Lemoine) Another one of Lemoine's good ones. Cherry rose otherwise similar to Eugene Lefebvre but not such a strong grower. 25c
- Geraldine Farrar**—Pale lavender violet with violet spot on lower petal. A sensational new blue variety. \$2.00
- Giant Myrtle**—Soft pink on white, tall variety of light rose pink with creamy yellow throat. An outstanding variety.25c
- Giant Nymph**—A very large, tall variety of light rose pink with creamy yellow throat. An outstanding variety. 25c
- Glendale**—An extra fine tall graceful purple. 10c
- Gold**—Lovely large clear yellow. 10c
- Golden Measure**—Large flowers of rich golden yellow, often slightly flushed with red.8c
- Henry Ford**—Dark purple much like Anna Eberius but color much clearer and said by the originator to be better. 25c
- Herada**—Beautiful large glistening mauve. The best of its color.....5c
- Halley**—Salmon pink, large open flowers, early.5c
- J. A. Carbone**—(D) Large iridescent orange salmon with yellow throat. Distinctive color.20c
- Jenny Lind**—Pink with yellow throat. A most beautiful and charming variety. One of the best in our collection. 15c
- Jeorg's White**—(Jeorg). An immense white. Said by Gladiolus authorities to be the greatest of all whites. \$2.00
- Jewell**—Priminulus type. Clear light salmon with yellow throat. Very tall and straight. A very beautiful variety. 8c
- Immensity**—A fine salmon, large spike and flowers. We consider this one of our best ones.10c
- Indian Summer**—A very large light lavender rose pink on creamy white ground, massive ruffed flowers on strong spikes. 25c
- Louise**—Large, well opened, orchid like flowers of an attractive bright blue lavender color.5c
- Le Marshall Foch**—Pure delicate rose pink, flowers large and wide open. 5c
- Linton**—(Prim) Clear salmon.10c
- Los Angeles**—(Houdyshell) Delicate pink with cerise feather in the throat. Called the cut-and-come-again gladiolus. In great demand. Fine commercial variety.35c
- Marie Kunderd**—(K) A very fine early white, large ruffed.10c
- Mary Pickford**—White with yellow throat, beautiful, early.6c
- Mr. W. H. Phipps**—La France Pink overlaid with light rose salmon, lower petals faintly striped and speckled with ruby. Flowers of the largest size. Considered a masterpiece in gladiolus.65c
- Mrs. Dr. Norton**—(K) Beautiful tall cream and pink. Several open, one of the best.6c
- Mrs. Francis King**—Tall, scarlet. A fine cut flower.5c
- Mrs. Frank Pendleton**—Salmon pink with maroon blotch on lower petals. 5c
- Mrs. F. C. Peters**—This is a wonderfully new variety of rose lilac with soft crimson blotch.20c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Mrs. H. E. Bothin—Light pink with scarlet center, ruffed.6c

Mrs. Leon Douglas—Begonia rose striped with scarlet, flowers extremely large, very open borne on long, strong spikes five feet high and carrying several side spikes. 15c

Mona Lisa—Soft rose pink, ruffed. 5c

Myra—(Prim) Large salmon yellow with red stripes on lower petals. ..5c

Orange Glory—Fine orange with beautiful lighter throat. Very rich and striking color. Beautiful and distinct. 6c

Panama—Rose pink, very large open flowers. 5c

Prince of Wales—Strawberry pink shading to a very pale pink throat. Strong spikes. Very early.10c

Purple Glory—Deepest velvety maroon red with darker blotches, ruffed, tall and striking. Extra fine.....10c

Purple Spot—(K) Large violet red with very conspicuous dark blotches. Early, grand, showy.10c

Red Fire—(K) Large clear glistening red. A good one.15c

Red Ridinghood—Priminulus type. Watermelon red with darker lines in throat. One of our own introductions. 15c

Richard Diener—Large La France pink, soft yellow in the throat. One of the very finest.15c

Rose Ash—A unique shade known as ashes of roses.6c

Salmon Beauty—(Prim.) Deep salmon, rich salmon yellow throat. 10c

Sans Parel—Apricot pink with white throat of remarkable purity. Large plant and flower. An importation from Paris.50c

Seniorita—Rich reddish mahogany brown, lines of brick red in throat and flamed. An entirely new and distinct color. Flowers of medium size. Plant of medium height. Does not make a large bulb. Blooms from small bulbs and bulblets. Good propagator. A very beautiful,

unique and distinct variety. Every one adores Seniorita and so will you. Our own introduction. One inch bulbs and up\$2.50

Sheila—Light coral red fading to flesh pink in the throat with primrose blotch on lower petals, penciled with pomegranate-purple. An exceptionally good early variety.....8c

Smiles—White with rose pink on outer edge and beautiful throat. ..6c

Sunset Glow—(Gibbs) Primulinus type. Orange red and yellow. Very showy. 15c

Sulphur Glow—A beautiful shade of yellow. Many well expanded intensely ruffed flowers open at a time. 20c

Sweet Lavender — Light lavender pink blending into creamy yellow with magenta blotch, early.6c

Schabwen—A giant yellow with red blotch in throat5c

Tycko Zang—(Austin) Immense salmon pink, white throat faintly dotted cerise. Very large heavy foliage. Tall strong grower.\$2.00

Tyrian Beauty—Magnificent spike of large flowers of pure Tyrian rose. Upper petals slightly lighter. Tall straight strong grower, beautiful and attractive. Surpasses all others of like color. 8c

Violet Glory—Rich self-colored deep violet, deeper throat, slightly ruffed large flower.8c

MIXTURES

No. 1—A mixture made up of named varieties. Not a field grown mixture but a hand selected assortment in a good variety of colors. 35c per doz. 50 for \$1.00. Half size 100 for \$1.00

No. 2—Made up of better named varieties and selected seedlings. 50c per doz. 50 for \$1.50. Half size 100 for \$1.50.

All stock offered and orders accepted subject to prior sale.

Six bulbs of one kind and size sold at the dozen rate, 25 at the hundred rate.

250 bulblets at the 1000 rate. Pt. or 1/2 pt. at qt. rate.

We pay postage or express charges.

DAHLIAS

Culture: Dahlias will thrive in any soil that will produce a good crop of potatoes. They grow best in a sunny location. The soil should be spaded deep. Do not use fertilizer at planting time. The tubers should be set three feet apart each way. Dig a hole six inches deep and lay the tuber flat in the bottom, eye side up. Drive a stout stake near the eye at time of planting. Fill the hole about half full of soil. When the plant has made two pair of leaves, pinch out the top above the second pair. Cultivate thoroughly, gradually filling in the hole. When buds appear, pinch out all but one on a stem and also the next pair or two of shoots below the bud. This practice of pinching out the top and the buds makes a dwarfer and bushier plant with large flowers on long stems suitable for cutting and exhibition. Keep the plants well watered during the dry season. After frost has killed the plant, cut the top off close to the ground, dig carefully and store on a dry, cool place free from frost. It is better to turn the clump with stem end down in storage.

All orders are filled with field grown tubers of proper planting size, except as noted. We guarantee all Dahlias to be true to name and to grow and will replace or refund purchase price on any that are untrue to name or fail to grow. We can supply green plants of some varieties as indicated at 1-3rd less than tubers. Plants are from 3-inch pots, ready after May 1st. Plants will give equally as good results as tubers. Six or more varieties sold at the price of five. Simply deduct one-sixth from total amount. This discount applies to both tubers and plants but tubers and plants cannot be combined to secure this rate. We prepay transportation charges on Dahlias.

OUR OWN INTRODUCTIONS

Annie Langlois—(Decorative). The center is dark amber shading thru golden amber, apricot to buff at edge. The flowers are of good size with petals turned back toward the stem giving it a globular form. The bloom is held erect on strong stems. The plant is vigorous. Unusual rich combination of autumn color. ..\$2.50

Brig Stong—(Decorative). A very large flower similar to Geisha in color but containing more of the yellow especially late in the season. The petals are long and slightly curled giving it a very attractive appearance. The flowers are full, held upright on stout stems. Plants vigorous. Sure to be a popular one. \$5.00

Humboldt—(Peony). Reddish purple with silver reverse. Petals usually slightly twisted showing the reverse. Often having rudimentary petals which are curled and cover the center. Strong stems and good plant. \$1.00

Pride of Prunaria—(Decorative). A rich dark slightly reddish purple of fine form and excellent habit. Silvered lines on the reverse. The flowers are of good size on stiff stems, lasting well when cut. A very fine one in its color.\$2.50

Prof. S. A. Beach—(Cactus). A large flower of the finest cactus form. The color is cardinal with reverse of gold. The reverse of the petals shows in the center giving it a center of gold surrounded by cardinal. The outer petals gradually change to a golden hue. It always has a full center and the flowers are held erect at right angles to a stout stem. Lasts well when cut. Sturdy plant. \$1.50

Vancouver's Geisha—(Peony). Coloring practically identical with Geisha but the petals are from ¾ to ½ an inch longer and slightly twisted, rolled and curled giving it a very artistic appearance. Stems and plant good. A seedling of Insulinde. \$1.00

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Washingtonian—(Hyb. Decorative). An immense flower, often ten inches in diameter. The color is a rosy mauve pink throughout. The big blooms are held upright at right angles to the stout stems. A vigorous grower. \$1.50

Plants of Above, 1-3 Less.

General List

Alabaster—A pure white cactus, flowers of large size. 75c

Ami Nonin—Collarette type. Dark crimson carmine, white collar suffused rose. 25c

Attraction—(Hyb. Cactus). Silvery mauve rose, large flowers, good stems and sturdy grower. 50c

Ballet Girl—(Cactus). A very striking dahlia and one that is much admired. Some flowers are pure orange, others orange edged white and there may be all combinations of white and orange on the same plant. \$1.00

Bear's Claws—A deep red cactus of giant size, strong grower, prolific. A prize winner. Plants \$1.00....\$1.50

Betty Austin—(Cactus). Color yellow at base blending to rosy carmine and rose, yellow at tips. Stiff stems. A very beautiful and pleasing variety. 75c

Billionaire—(Peony). Large golden yellow. 35c

California Supbera — (Decorative) An immense flower of delicate pink shading to white at the center. The blooms are of good form and retained their centers throughout the very dry season of this past year. The stems are stiff and straight carrying the flower well above the foliage. An exceptional one. Plants \$1.65. \$2.50

Cardinal Supbera—(Cactus). A marvelously brilliant giant cactus with immense flowers of most perfect form and of a brilliant red with a golden metallic lustre. It has good stiff stems holding the flowers in such a manner as to display their brilliant beauty to full advantage. Plants \$1.65. \$2.50

Centennial—(Decorative). A pure white of large size and finest form. Stems long and stiff holding the bloom well above the foliage. Vigorous grower. Originated by Mr. M. H. Dean of this city and named in honor of the city's 100th birthday. A 1925 introduction.\$5.00

Champagne—(Decorative). A huge flower held rigidly erect on cane like stems. Good habit of growth and a profuse bloomer. Dull golden champagne shaded with chamais. One of the best new introductions. Plants \$1.25. \$2.00

City of Portland—(Peony). A clear, rich deep yellow of very large size. The vigorous plants produce flowers freely throughout the season.50c

Colossal Pink—(Decorative). Clear, bright pink shaded lighted at tips and center, of massive build and always full. Good stems. An ideal garden plant.75c

Delice—(Decorative). Bright rose pink. Very good cut flower.....25c

Don Williams—Decorative. A soft shade of lavender pink tipped with white. Flowers large on good stems. Plants \$2.00.\$3.00

Dr. H. G. Dean—(Dean Hyb. Cac.) Blooms of brownish orange with rose crimson reverse.75c

Espoir—(Decorative). Usually about 4½ inches in diameter but a perfect gem which will become a general favorite for cutting and garden decoration. Perfect in form with long wiry stems early and free blooming. Color the soft rose pink that everybody likes, with just enough salmon suffusions to give it a lustre and glow. Plants 65c...\$1.00

F. W. Fellows—(Cactus). One of the very best cactus dahlias with flowers of unusual size for the long narrow petaled type of which this is one of the finest representatives. Its color is an intense coral red with deeper suffusions at the center...50c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Earl Williams—(Decorative). An exceptional attractive variegated or fancy variety, the flowers are of large size, of splendid formation and of a brilliant crimson scarlet color, each petal tipped with white, an early and free bloomer. Plants 65c.
..... \$1.00

Eldorado—(Decorative). Size stem and color of this variety are the best. Rather low growing with immense golden yellow blooms which stand up and look you in the face. Flowers of great depth. A splendid dahlia in every way. Plants \$2.25.
..... \$3.50

El Granada—(Hyb. Cactus). The color is a vivid orange and the petals twist and interlace showing a creamy yellow reverse at the tips. The strong stems grow well out of the foliage and are absolutely stiff. The high bushes are covered with large deep flowers with closed centers from early until late. One of the best and most artistic dahlias. Plants \$3.25. \$5.00

Geisha—(Peony). Red and yellow, very large, a striking flower and a very popular one.50c

George Walters—(Hyb. Cactus). A very large soft coral pink suffused with gold in the center. It is a splendid grower and a very free bloomer. An exceptionally fine one.35c

Gladys Sherwood—(Hyb. Cactus). A very large white flower on a straight stiff stem. A prolific bloomer. Fine for garden or exhibition.75c

Grizzley, The—(Decorative). Dark maroon red, stiff stems. Extra large flowers. Strong grower.75c

Helen Dornback—(Hyb. Cac.) Delicate blush to glowing pink at center. 35c

Hortulanus Fiet — (Decorative). Flowers over eight inches in diameter, of the most delicate shade of shrimp pink, the tip of each petal touched with gold. The entire flower has a suffusion of delicate tints of red and yellow which give a glow yet softness of color of great charm. Stems and plant good.75c

Insulinde—(Decorative). A large orange buff, overlaid with a golden sheen shading to orange deep in the center, with old rose on the reverse of the broad curly petals. The blooms face up on straight, wiry stems. Excellent cut flower.\$1.00

Isabelle Street—(Decorative). Base bright yellow, shading to bright rose red with white tips, reflex pale yellow. 50c

Jersey's Beauty—(Decorative). This is an outstanding variety of great beauty. Eosine pink. Fine, stiff stems, strong grower. A great cut flower and prize winner. Plants \$1.30. Tubers\$2.00

Islam Partol — (Hybrid Cactus). Very dark velvety scarlet tipped and flushed with pure gold. Plants \$1.00. \$1.50

Jersey's King—(Decorative). Very large perfect flowers of a brilliant oriental red with carmine suffusions. Long stiff stems. Early and free flowering. Plants 65c.....\$1.00

Jersey's Pride—(Decorative). A large attractive flower, apricot orange with golden suffusions, produced on long stiff stems. Plants 65c. \$1.00

J. W. Davis—(Hyb. Cactus). Deep shade of cerise at center, gradually shading to a lighter tinge. A very large flower that holds its center throughout the season. Plants \$1.00.
..... \$1.50

Judge Merean—(Decorative). A huge flower of perfect type. The color is a combination of salmon pink, red, orange, yellow and gold. Free bloomer on long strong stems. Plants 65c. \$1.00

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Johanesburg—(Cactus). Bright gold, good stems and free flowering.....25c

Kalif—(Hyb. Cac.). A wonderful and beautiful flower of pure scarlet. 50c

King of the Autumn—(Decorative) Golden suffused buff. A very effective Autumn color. The flowers are carried well above the foliage on extra long stiff stems making it an excellent cut flower.35c

Kitty Dunlap—(Decorative). A very free flowering, fine formed dahlia of American Beauty rose color. Stems long and stiff. Plants \$1.00.....\$1.50

Lady Lavender—(Dean Dec.) Large lavender with faint yellow stripes running thru the petals.75c

Loma S. Vermilion—Blended flame and apricot shadings.\$1.00

MacGregor—(Hyb. Cactus). A lovely spectrum red of fine form on good stems. Good grower and free bloomer. Plants \$1.00.\$1.50

Mariposa—(Hyb. Cac.) An immense flower of bright yet delicate pink shading lighter to the center. A free bloomer. Stems long and stiff. The flowers are fine both for cutting and exhibition. Plants \$1.25. ..\$2.00

Mary C. Burns — (Decorative). A combination color of red and old gold. The outside of the petals is old gold while the reverse is red. Good stems and a free bloomer. ..50c

Mary Steffenson—(Hyb. Cac.) Color at base, citron yellow, outer half creamy white, both yellow and white mottled and overspread with rose-line pink. Petals recurved and ends rolled in. 35c

Millionaire—(Decorative). A monster dahlia held erect on strong stems. Light lavender shaded to white at the center.50c

Mina Burgle—(Decorative). A free blooming rich dark scarlet. A favorite cut flower variety with florists. 25c

Miss Vancouver—(Dean). A large flower of a beautiful shade of uniform bright pink. Good stems and plant. Plants \$1.65.\$2.50

Mrs. C. Cooper....(Cactus). Flowers of large size on good stems and a free bloomer. Color cream, the outer petals slightly suffused salmon. 50c

Mrs. C. Githens—(Decorative). Rose pink tipped white, petals long, pointed, and reflexed and slightly whorled. Stiff stems.50c

Mrs. Carl Salback—(Decorative). Very large lavender pink blooms on exceptionally long, stiff wiry stems. An excellent variety for cutflowers and exhibition. 35c

Mrs. Gertrude Higgins—(Dean Hyb. Cac.) Large flowers on perfect stems. Crimson tipped with gold. 50c

Mrs. Maud Hastings—(Dean). Very soft yellow, full flowers on good stems. Prolific bloomer.35c

Mrs. I. de ver Warner—(Decorative) Very large beautiful flowers of fine form and substance. Rich rosy mauve; long rigid stems. Very attractive in the garden and fine for cutting or exhibition. Plants 65c. \$1.00

Mrs. Nellie Dean—(Dean Hyb. Cac.) Giant flowers of brilliant carmine-cerise with lighter reverse.50c

Mrs. Rowena Fairchild—(Dean). An exceptionally good pink peony. ..60c

Mrs. Warnaar—(Hyb. Cac.) White suffused pink, large, free flowering, stiff stems and sturdy plant. An excellent variety for the garden, cutting or exhibition.50c

New Moon—(Hyb. Cac.) Canary yellow tipped white. A free bloomer on long straight, stiff stems. Everybody likes this one.75c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Ori Fino—(Cactus). Light canary yellow. Stem long and strong. Free bloomer. This is a very fine yellow variety. 75c

Osam Shudow—(Decorative). A beautiful shade of old rose with yellow shadings at base of petals. The flowers are large and borne on long, strong erect stems. A soft and pleasing shade of orange buff slightly tinged with rose. A lasting cut flower. Plants 65c.\$1.00

Patrick O'Mara—(Decorative). The flowers are supported on long stiff stems, are of good size, of perfect form and in color are a rich chrome yellow. Very free flowering. A good cut flower. A basket of these touched up with Delphinium Belladonna is wonderfully attractive...75c

Paul Michel—(Decorative). One of the sensational large exhibition flowers that always attract attention, petals quilled at base, curled and wisted, color pure gold, shaded orange buff at center, very free flowering. \$1.00

Pennent—(Cactus). A beautiful deep, clear coral, incurved type. 35c

Pierrot—(Cactus). Amber boldly tipped white, large flowers.....35c

President Wilson—(Decorative). A large and attractive dahlia on good stems. Soft dark crimson, generally tipped pure white. Attracts much attention. Plants \$1.25.....\$2.00

Pride of San Francisco — (Decorative). A strong grower of compact habit, free flowering and flowers held in an erect position and with stems of sufficient length to make them desirable for cutting. The color is a most pleasing shade of salmon pink, with soft rose suffusions toward the tips of the outer petals, and with a golden base, the color effect as a whole being a pleasing brilliant golden salmon pink. Plants \$1.25.\$2.00

Princess Pat—(Decorative). A very large, soft old rose flower that is borne on stiff stems.50c

Princess Julianna—(Decorative). An early, free flowering pure white borne on good stems. Excellent for cutting. 25c

Polar Bear—(Decorative). A very large pure white on long stiff stems. Very free flowering. Extra for garden decoration.50c

Rheinsher Froshin—(Cactus). The flowers are large, of splendid form. The long incurved petals are white at the base but at about one-third of their length they become suffused with and change to a luminous carmine rose. 50c

Rollo Boy—This is a hybrid cactus of great size with every flower carried erect on a strong stem. A delicate shade of amber shading to old gold. It is a conspicuous garden plant and if wanted for exhibition it is the largest in this section. Plants \$1.25.\$2.00

Rockwood—(Decorative). This was one of the finest blooming varieties and one of the most attractive in our garden the past dry season. The plant is low growing and produces an abundance of very large, artistic flowers of a bright cerise-rose color. Every bloom is perfect throughout the season, always coming full at the center. The fine straight stems hold the flower perfectly erect, well above the plant. Plants \$1.65. \$2.50

Rosa Bonheur—(Hyb. Cac.) Ivory white center shading to a beautiful shell pink. Free blooming and splendid stem. The outer petals are prettily twisted and curled giving it a graceful and artistic appearance. Always a prize winner. Plants \$1.65. \$2.50

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

- Rosalia Styles**—(Peony). An immense flower of beautiful form carried on strong, stiff stems well above the sturdy plants. A free and continuous bloomer and good cut flower. A live lustrous bright tyrian pink. Does not show peony form until fully expanded.50c
- Rheinkonig**—(Cactus). A very pretty pure white of the finest form on stiff stems.25c
- Shannon**—(Decorative). A new orange yellow, medium size, wiry stems, very prolific, good keeper as a cut flower.75c
- Shudow's Lavender**—(Decorative) A very large silvery lavender shaded to white. The stems are strong and hold the flowers well above the lacy foliage. A very fine one. Plants \$1.25 \$2.00
- Sequoia Gigentea**—(Decorative). A great big buttercup yellow with a suggestion of red. A very strong grower. 75c
- Snow King**—(Dean. Hyb. Cac.) A free blooming pure white on a good stem. 50c
- Souverinty**—(Cactus). A large pure yellow. A strong grower and produces a long succession of fine blooms. 35c
- Sunset**—(Dean Dec.) Flowers often eight inches in diameter with petals curving back nearly to the stem forming almost a complete sphere. Coloring resembling a beautiful sunset. 75c each.
- Susan G. Travis**—(Decorative). This has a distinctive new color tone, best described as a deep shade of lilac with a bluish sheen. The blooms are regularly formed of narrow flat, pointed petals. It is a very large graceful flower of fine depth. Plants \$1.65. \$2.50
- Sussex**—(Cactus). This has the narrowest petals of any in our list. Incurved type; good habit of growth; clear light yellow.50c
- Testout**—(Decorative). Color of the Caroline Testout rose. Medium size and very fine for cut flower.50c
- Tobahana**—(Dean Dec.) A pure orange scarlet of a most attractive form, the petals being arranged in such a way as to preclude all stiffness. Good stem, free bloomer and fine habit of growth. A very large and beautiful dahlia.\$1.00
- U. S. A.**—(Hyb. Cac.) A mammoth flower of an exquisite deep orange color that is unusual in dahlias. A very full flower carried on excellent stems well above the foliage. Free blooming and one that attracts great attention. Plants 65c. Tubers \$1.00
- Vulvan**—(Cactus). A large and full deep maroon and at the base of each petal there is a tiny white petal. Incurved claw like. Good stems and good habit of growth.75c
- Wodan**—(Hyb. Cac.) The flowers are a graceful arrangement of semi-incurved, tubular petals of a pleasing delicate salmon rose color shading to old gold at the center.35c
- Wacht am Rhein**—(Cactus). A beautiful shell pink.25c
- Wizzard of Oz**—(Decorative). This veritable giant is a rare shade of glowing amber pink, of soft salmon shades and are held high on strong stems. A fine exhibition variety. Plants \$1.65. \$2.50

HARDY PERENNIAL PLANTS

The growing popularity of the hardy garden flowers is not at all surprising when we consider the many and varied changes which take place throughout the growing season and the splendid results obtained with so little care. Every week brings forth something new to interest and delight. Very early in the spring the early varieties open their flowers and continue, with constant changing variety, throughout the summer until late in the fall when only severe freezing weather will stop the late blooming Chrysanthemums.

Many not familiar with this class of plants have the idea that nothing but a large field grown plant will give satisfactory returns the first year. This, experience has taught us, is in most instances, a mistake. A vigorous plant of proper size, will give far better and quicker results than the best so-called "field clumps." The plants we send out are young and vigorous and will, with reasonable care, give splendid results the first season. Plants are sent prepaid at prices quoted. Unless otherwise stated the price is 25c each. Twelve of a kind at ten times the each price or six of a kind at five times the each price.

Anchusa Italica—Dropmore variety. One of the best plants for the hardy border. It makes a mass 3 to 4 feet high with innumerable for-get-me-not like flowers and blooms a long time. Sunny situation.

Anemone Japonica—Beautiful autumn flowering plants. Tall and stately, they bear many large showy flowers which are lasting when cut. They do best in the cooler positions of sun or shade. In cold climates they need protection thru the winter. We have three colors; silvery pink, white and semi-double rose.

Aquilegia or Columbine—One of the finest of garden plants, of easy culture, having handsome foliage at all seasons and beautiful flowers borne gracefully on long stems. They thrive in shade or sun. We have the Mrs. Scott Elliott strain of long spurred hybrids in many colors mixed. There is nothing finer.

Asters—Hardy fall flowering sorts known as Michealmas Daisies. One of the best hardy plants for fine masses of soft color in the garden or for cutflowers. For best results they should be divided and reset each spring. They require watering to bring them thru the dry season in good shape.

Climax. Large lavender flowers with yellow centers, 3 to 4 feet.

Iva Logan. Dark purple with bright yellow center, 3 to 4 feet.

Saturn. Light blue with bright yellow center, 2 feet, very late. 20c each. Set of 3 sorts, 50c.

Astilbe—Producing many branched feathery heads of flowers during June and July. They succeed in half shady moist positions in any ordinary garden loam. Pink.50c

Bellis—See Daisies.

Bleeding Heart—(*Dicentra spectabilis*). Grows two feet with graceful branches, fernlike foliage and a long raceme of heart shaped rosy pink flowers, pendulant below. Thrives in shade. 75c

Plumy Bleeding Heart — Beautiful feathery foliage. Makes a fine ground cover. Does best in shade or heavy shade and loose loamy soil. 15c

Boltonia—Pink flowers similar to Michealmas Daisies, blooming in summer.

White flowered variety.

Campanula Persicifolia — (Peach leaved Bellflower). One of the best of perennial plants. The clumps produce many large bell shaped flowers on stems 2 to 3 feet high, of clear blue or white. Thrive in sun or light shade.

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Chinese For-get-me not. A beautiful blue perennial with flower stalks 18 to 24 inches long. An especially fine novelty for outside or inside for cut flower purposes or effects.

Chrysanthemums — Excellent hardy sorts for garden planting. Their beauty is both for cutting and for the wonderful profusion of flowers of many colors. Their culture is very simple. Plant in well worked soil in April or May, cut off top six inches above the ground to make them branch and give ordinary garden care. Some will need to be staked.

Hardy Pompom Chrysanthemums — This is the small flowering sort known as the button class and are becoming very popular for garden culture and are greatly admired for their graceful flowers in the cut state.

Alco, Rich golden yellow.
Charlotte, Bronze.
Lilian Doty, Pink.
Ruth, Dark claret red.
Rhoda, White shaded pink.
St. Francis, Bright yellow.
 20c each. Set of six sorts\$1.00

Single Chrysanthemums — These make fine pot plants and are excellent for cutting.

Firebird. Rich terra cotta shaded with bronze and bright yellow center.

Godfrey, A very beautiful rose pink.

..... 20c each.

Anemone Flowered Chrysanthemums
 This type consists of one or more rows of flat or tubular ray petals while the center is filled with shorter quilled or tubular disc florets of the same or a distinct color. They are of exceptional beauty for pot culture or for cutting.

Clementia, Deep pink shaded deeper. Very beautiful.

Chestnut, Bright orange shading to yellow tinted with pink as they develop.

Maple Leaf, Light yellow overlaid with old rose. Ray petals sulphur yellow, lightly penciled with old rose. Center pale lemon yellow.
 20c each. Set of three sorts.....50c

English Garden Chrysanthemums — These are larger than the Pompoms. Often called aster flowered, the flowers being quite similar to asters. They are perfectly hardy and bloom during September and October.

Glory of Seven Oaks, Bright yellow. Begins to bloom in August.

Mignon, Rosy pink shaded silvery. Strong vigorous grower and very free flowering.

Source d'Or, Tawny red flushed with bronze and chamois.

Zelia, A fine orange bronze.
 20c each. Set of four sorts....65c

Japanese Chrysanthemums — These are the large flowering kinds commonly grown by florists for cut flowers. Hardy only in favored localities.

Chas. Razor. An elegant incurved bloom of pure white.

Chiefton, A perfect incurved flower of beautiful silvery pink.

Major Bonafon. Clear yellow, full and deep.

Maud Dean. Bright, deep pink, very long narrow petals.

Mistletoe. Bright golden yellow.

W. H. Waite. Deep bronze shaded with gold. Finest incurved form and very large.

Yellow Chadwick, Deep yellow, late.

15c each. Set of seven sorts....85c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Coreopsis Lanceloata Grandiflora—It produces a succession of rich yellow flowers, long stemmed and excellent for cutting.15c

Delphinifolia. Lacy foliage like the larkspur, small yellow flower with brown center.

Rosea. Small flowers of bright rose, fine foliage.15c

Daisies—English. Improved double flowering, pink and white, 10c Dozen 75c

Flordale. A double fringed variety of the Shasta Daisy.

Shasta. Produces slender branching flowering stems, white with golden centers, 3 to 4 inches across. Good cut flowers. Thrives anywhere. 20c

Day Lilies—See *Hemerocallis*.

Delphinium or Perennial Larkspur. are among the most popular of garden plants, making a grand mass of various shades of blue, five to seven feet high. Wonderful for garden massing and also fine for cutting. If the spikes are cut close to the ground after flowering, they will send up new shoots and bloom again the same season. We can offer only mixed colors at this time.

Dianthus—(Sweet Williams, Pinks, Carnations.)

Alwoodii. These are an important addition to our perennial plants. They are perfectly hardy and flower continuously from early spring until late in the fall. The flowers are much more substantial and larger than the old types of hardy pinks. They are borne on long stems suitable for cutting and are delightfully clove scented. Mixed colors only.

Chabaud's Carnation. Produces splendid double clove scented flowers in great profusion, indefinitely. Mixed colors.

Sweet Williams. Every one knows and loves them. The newer shades in mixtures. Strong plants.

Everblooming Sweet Williams. These are fine flowers. They have fewer blooms in the head and the flowers are larger than the Sweet Williams. Dark velvety crimson. 15c

Doronicum Clusii—Leapord's Bane. Greatly admired in the garden or as cut flowers. Light yellow daisy like flowers as large as a Shasta Daisy, in early spring and bloom for a long time. They do well in partial shade.

Echinops Rito—Gobe thistle. A thistle like plant of rather coarse growth bearing round thistle like heads of a beautiful steel blue.

For-get-me-not. *Palustris Semperflorens.* A variety that is seldom out of flower, useful for the shady spots. 10c. 75s doz. See also Chinese Forget-me-not.

Foxglove—(*Digitalis*). The Shirley. This is a magnificent strain, growing 5 to 7 feet with very large flowers from white to deep rose and wonderfully spotted and mottled. There is no finer.15c

Gaillardia—(Blanket Flower). One of the brightest and hardiest and most easily grown plants. Dark brownish red centers with successive circles of scarlet or crimson finished with a border of yellow.15c

Geum—Mrs. Bradshaw. The flowers are deep brilliant red borne in abundance on tall branching stems. Does well in sun or light shade.

Geum Lady Strahedon is a rich yellow form of the above and considered an unusually fine plant.

Goldenrod—Golden Wings. This is the finest variety of all the goldenrods, having immense panicles in mid summer.

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Gypsophila Paniculata — B a b y's breath. Strong branching plants 2 to 3 feet with great masses of minute white flowers. Much used in bouquets with other flowers. The flowers can be dried.

Hemerocallis. Day Lilies. Popular hardy plants belonging to the Lily family having graceful grass like foliage. They succeed everywhere.

Fulva. The best known variety. Fragrant deep lemon yellow flowers in June and July.

Middendorffii. The earliest to bloom. May. Flowers bell shaped. Rich chrome yellow. 2 feet.

We will have a number of other varieties to offer in the fall.

Iris, German. Many of the newer and finer varieties to offer in the Fall. About 75 superb varieties. Planting season July 15th to Oct. 15th. We do not ship Iris in the Spring.

Spanish. A bulbous iris. Bulbs sold only in the fall.

Siberian. Narrow foliage and tall slender stems with handsome flowers, excellent for cutting. This type is becoming more popular. They do well in any garden loam but prefer a moist situation.

Distinction. S. violet blue. F. white with blue lines, copper at base. Very pretty.

George Wallace. Falls broad, light blue, standards darker.

Blue King. A large flowering variety of deep purplish blue, 25c

Orientalis. Very large, rich deep purple. Beautiful.

Snow Queen, large white flowers, yellow at base.

Set of the five varieties.....\$1.25

Japanese. Gloriously beautiful plants that are well worth while. At their best, the stiff stems are four feet high, the brilliant flowers six inches across, the foliage is bold and striking. They do best in a rich soil with plenty of water especially during the blooming season, but the ground should be well drained as they will not stand water at the roots during winter. Plant in August or September or in the spring. The plants usually do not bloom the first season after planting. All named varieties are withdrawn from sale to increase stock. Mixed, three and six petaled.

Lavender—A well beloved plant of the old fashioned garden with fragrant blue flowers borne over a long season. Large plants only. 50c and \$1.00 each not prepaid.

Lily of the Valley—Clumps for outdoor planting. They require light to medium shade and a loose moist soil. Delightfully fragrant small white flowers.

Lily Regale—A new hardy lily from China that is very popular and admittedly one of the most beautiful garden lilies. It grows under varied conditions. The flowers are trumpet shaped, delicately scented, ivory white shaded pink, tinted canary yellow inside at base, are borne freely on stems 3 to 5 feet high in July. Large flowering sized bulbs 50c each Small flowering sized bulbs 25c each

Mysotis—See Forget-me-not.

Michaelmas Daisies—See Asters.

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Peonies—A number of good varieties, offered only in September and October.

Phlox—They are among the very best perennial plants for mid-summer effects. The flowers are borne in large heads in many shades both soft and brilliant colors. They do well in a good loamy soil in sun or partial shade and should be watered during the dry period.

Albion. Pure white with faint red eye.

Champs Elysee. A bright rosy magenta.

Jeanne d'Arc. A good late flowering white.

Miss Lingard. White with slight lavender halo. Early. Begins to bloom in May and continues until October.

Mrs. Jenkins. The best all round pure white.

Frau Anto Buchner. Very large flowers and truss. White often marked with carmine.

Rynstrom. An effective carmine-rose.

Viking. A fine shade of pink, tall and late.

Poppies Orientale—Very large gorgeous flowers in May and June. They have large tap roots and are best planted in August and September when they are dormant.

Goliath. Scarlet with large black spots on each petal.

Mahogany. Dark mahogany red with black blotches on each petal.

Mrs. Perry. A fine salmon apricot with black blotches.

Oriflamme. Large orange scarlet.

We will have several other varieties to offer in the fall.

Primroses—English. Early low growing, bright colored flowers for low borders. They do best in good loam and shady situation.15c

Pyrethum Roseum—Grows a foot high or more with many fine flowers on long stems, excellent for cutting. The flowers are both single and double in shades of white, pink and red to deep crimson. They bloom over a long season. Plant in good loam in sun or light shade. Our plants are grown from a very fine strain of double sorts but there will be many very fine singles among them.

Ranunculus Repens fl. pl.—The very double flowers are produced in spring and early summer. They are the original double buttercups. Each 15c

Shasta Daisy—See Daisies.

Sweet Williams—See Dianthus.

Tritoma—Commonly known as Red Hot Poker. From large grassy leaves. Big leafless flowering stems are sent up bearing dense spikes of brilliant scarlet flowers. The variety we have blooms a long time. In cold climates they should be taken up in the fall and stored in dry sand thru the winter.

Veronica. Speedwell. Longifolia sub-sessilis. The showiest and best of the Veronicas. Forms a bushy plant 2 to 3 feet high, with long dense spikes of deep blue flowers from the middle of June to early in September.

Spicatus. An elegant border plant growing about 18 inches high producing long spikes of bright blue flowers in June and July. See also Evergreen Shrubs Veronica.

Wallflowers—Old fragrant favorites, mixed colors in yellow, brown and red. Large plants only.

ROSES

We carry only a few of the newer standard varieties. Our plants are No. 1, two year old, field grown, budded stock, except climbers which are on their own roots. 60c each unless otherwise noted. Not prepaid.

Dean Hole—Silver carmine.50c

Duchess of Wellington—Rich saffron yellow with reddish glow, large, well formed pointed buds, very fragrant.

Hugh Dickson—A fine produce of the very finest brilliant crimson scarlet roses. Of strong vigorous growth and free blooming habit...50c

Irish Fireflame—A very fine single rose of rich orange color shaded red, especially beautiful in the bud.

Irish Elegance—Bronzy orange in the bud opening into large single flowers in rich shades of orange and copper. Very popular.

Joseph Hill—Clear golden copper edged with salmon pink.

Killarney—An exquisite shade of deep shell pink, lightened with silvery pink. The buds are exceptionally long and beautifully formed. 50c

Kitchener of Kartoum — Dazzling scarlet. Single flowers in great masses. A wonderful decorative rose. Should be allowed to grow naturally.

Lady Hillingdon—Deep apricot yellow, finely formed buds on slender stems.

Lady Ursula—Flesh pink, gracefully reflexed petals, large, full and of great substance.

Los Angeles—Flame pink toned with coral red and shaded gold at base. Very large fine formed buds. Very popular.

Mme. Edouard Herriott—Coppery red shaded bright pink, very fine pointed buds, continuous bloomer. Always much admired.

Ophelia—Light salmon shaded rose, finely formed buds and a continuous bloomer.

Frau Karl Druschki — This grand large, vigorous growing rose is the best and purest white.40c each

Hadley — Deep velvety crimson, blooms freely.

Hoosier Beauty — A crimson-scarlet variety with finely shaped buds, fragrant. A very popular red.

George Ardens—Called the pink Frau Karl Druschki and is very similar to that variety but bright pink in color.

Mme. Caroline Testout—The well known large pink garden rose. A continuous bloomer.40c each

Rose Marie—A very finely shaped rose with fragrant lasting flowers, a rich deep uniform shade of pink.

Lyon—A superb shrimp pink with salmon and chrome yellow shadings, very large and beautifully formed on strong stems, continuous bloomer.

Premier—A robust grower with luxurious foliage surmounted by massive pink flowers of great substance. An extra good variety.

CLIMBERS

Dr. Van Fleet—Flowers large with high built centers, a beautiful shade of shell pink, handsome bronze-green foliage.

Paul's Scarlet Climber — Brilliant vivid scarlet, semidouble flowers produced in clusters.

Silvermoon — Large single silvery white flowers, a rampart grower. 60c

ORNAMENTALS

Broadleaved and coniferous evergreens are dug with a ball of dirt on the roots and burlapped. They are shipped by express or freight, at purchaser's expense.

BROAD-LEAVED EVERGREENS

Abelia Grandiflora — A graceful small leaved shrub with pinkish white flowers late in summer when few other plants are in bloom. Spreading habit, good for rockery, banks and massing. 18-inch, \$1.00; 24-inch, \$1.50.

Azalea Hidonigiri — Japanese evergreen Azalea. Dwarf habit bright crimson flowers in spring. See also deciduous Azelea.\$1.50 each

Berberis Darwinii — An evergreen barberry with small holly-like leaves and bright yellow flowers in spring. 25c - 50c

Boxwood—Slightly trimmed, plants 6 to 12 inches high.....50c to \$1.50

Camelia Japonica — Glossy dark green leaves. Very double pink flowers like small roses. Small plants \$2.00

Choisa Teranata—Mexican Orange. A compact free blooming bush with fragrant, waxy white orange-like flowers. 75c

Cotoneaster—Beautiful shrubs with small leaves and red berries that hang on all winter.

Floscosa. Of low spreading habit, dark green leathery foliage. Very attractive at all times. Each,35c and \$1.00

Fanchetti. An upright grower with gracefully arching branches. Leaves silvery beneath, bright orange scarlet berries.

Microphylla. Sprawling, very small glossy dark green leaves and bright red berries. Fine for rockeries and banks. 50c and \$1.00

Thymifolia. Similar to the above but trails on the ground. An excellent rock plant or ground cover. 35c and \$1.00

Panosa. Of upright form but not stiff, reddish wood, bright green leaves and bright red berries. Very attractive.35c

See also deciduous Cotoneaster.

Crataegus Pyracanthus Coccinea—(Fire Bush or Firethorn)—Covered with clusters of orange red berries in winter. Very attractive.....\$1.50

Lalandi. Similar to the above but more spreading, red berries. Same price.

Cratageus Angustifolia. A Firethorne with very narrow silvery leaves. \$2.00

Dahane Japonica or Odora — Waxy light green leaves with white margin. Fragrant pink flowers in spring. Attains 3 to 4 feet.\$2.50

Euonomus Japonica — Waxy green leaves, semi-dwarf. 18 to 24 in. \$1.50

Albo Marginata. Similar to the above but each leaf has a white margin. Same price.

Radicans. Trailer, smaller leaves than Japonica.75c and \$1.00

Varigata. A variegated form of the above. 50c

Heather—Popular evergreen plants with tiny bell like blossoms borne in great profusion. Very desirable in any planting where low growing evergreens are wanted.

Mediterranean. Early spring flowering, bright pink. 75c and \$1.00

Hybrida. Dwarf, spreading, bright pink flowers throughout winter. Small plants 50c

Vagans. Lavender pink flowers on tips of branches in June and July. Each50c and 75c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Laurel — English. Large, glossy bright green leaves. Makes a small tree but can be trimmed to form or used as a hedge.75c and \$1.50

Laurustinus — A beautiful winter flowering shrub, attaining five feet with small whitish pink flowers in umbles. 50c, 75c, \$1.50

Lonicera Nitida — (Box Honey-suckle). Small evergreen foliage, very desirable for base planting or grouping. Can be trimmed like boxwood and used in tubs or used as a hedge. Plants 6 inches to 2 feet.25c, 50c, 75c, \$1.00 and \$2.00

Mountain Laurel—(*Kalmia Latifolia*). Glossy leaves with large clusters of small pink flowers.\$1.75

Mahonis—(*Oregon Grape*). Good nursery grown plants. 75c and \$1.00

Pernettya—A new evergreen novelty that is becoming popular. Dense compact habit, doing well in any location but prefers a rich humus soil. The leaves are small, dark, glossy green, white flowers in spring followed by profusely produced berries in fall and winter.\$1.00

Snowball—Evergreen or Leather-leaved. A neat shrub of upright growth with large, dark green, leathery leaves and snowball like flowers. \$2.50 each

Veronica—Small evergreen plants of symmetrical habit of growth.

Boxifolia. Dwarf, bright green foliage, fine for rockeries or borders.25c, 50c and 75c each

Cupressoides. A compact cypress leaved *Veronica* of bluish green color. A very popular variety.25c, 50c, 75c and \$1.00

Glaucia. Dwarf, with silvery blue foliage and white flowers. Good for rockery, banks or borders. Same price as *Boxifolia*.

Latifolia or Thymifolia. Of medium height, small dark green leaves and white flowers. Each,40c and 75c

Menziesii. Gray green foliage and one of the hardiest. Medium height. Price same as *Boxifolia*.

Pimeleoides Glaucia. Dwarf, compact, rich blue-green leaves. Leaves smaller than the above *Glaucia* and more glaucous. Each 25c and 50c

Traversi. This is the largest of the kinds that are hardy on the Coast attaining 3 to 4 feet. White flowers. Same price as *Latifolia*.

Rotundifolia. Of medium height with round, rich dark green leaves and pink flowers. Same price as *Boxifolia*.

Name Lost. A variety of medium height with reddish wood and bright green leaves with a red margin. White flowers, 50c each.

CONIFEROUS EVERGREENS

Arborvitae — (*Thuja Occidentalis*). Common arborvitae.\$1.50 each

Occidentalis Globosum. Natural globe shaped, bushy and compact. Small plants 75c each. Specimens \$3.50

Orientalis Pyramidalis. Deep green, broad base tapering to a point. Small plants, 75c each. Specimens \$1.50, \$2.50 and \$3.50

Orientalis Aurea. Golden Chinese Arborvitae. Golden, compact, bushy, dwarf, slow growing. \$2.50

Obtusa. Japanese Hinoki Cypress.

An artistic Japanese evergreen of great ornamental value having irregular fan shaped branches, with pendulous tips and pendulous top shoot. It is slow growing and gives an artistic touch to any planting. Pure green color. 12 to 18 inch plants\$2.50

Obtusa Aurea. A golden leaved form of the above.\$2.00

Cryptomeria Elegans—Compact, feathery foliage, bright green in summer changing to bronze red in winter.\$1.00, \$1.50 and \$2.00

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Cypress Erecta Verdis—Bright green compact pyramid form, very symmetrical formal appearance. 1½ to 2 ft. \$1.75

Cypress Erecta Glauca—Blue-green; compact pyramid form. Of very symmetrical formal appearance., \$2.00

Cypres Triumph de Boskoop—Blue-gray, of more open habit than the above. \$2.00

Juniper Chinese—Glaucus green color, slow growing, very compact, pyramid form. Each \$1, \$1.50 and \$2.50

Juniper Chinese Creeping—Similar to the above but of procumbent habit. \$2.00

Juniper Pfitzeriana Procumbens—Similar to the above in color but is larger and coarser and does not grow so flat on the ground.\$2.00

Irish. The most common voluminar form, steel blue. \$1.00 and \$2.50.

Virginiana. Large growing but of graceful habit, leaves scale like, bluish. \$2.50

Retinspora Filifera—Compact shrub of dense habit. Tips of branches thread like and gracefully pendulous, bluish. Can be trimmed and kept small and shapely. Small plants, 75c. Trimmed specimens, \$2.50 and \$3.50

Filifers Aurea. A golden form of the above. Same price.

Plumosa. Plume-like branches, compact.\$1.00, \$1.50 and \$2.00

Plumosa Aurea. A golden form of the above\$1.00

Spruce Norway—Dark green. A fairly rapid grower, trims well.....\$2.00

Thuya Occidentalis Filiformis.—Gray green, narrow foliage, bushy and compact.\$1.75

Yew English—(Taxus baccata fastigata.) Compact bushy habit, dark green, slender upright form, very slow growth \$2.50

DECIDIOUS SHRUBS

Azalea Mollis—An early flowering shrub, blooming before the leaves appear. Gorgeous flowers of yellow, orange and coral. We cannot guarantee colors. Strong plants full of buds. \$3.50

Azalea Altaclaeensis. \$1.00

Berberis Thunbergi—Japanese barberry. Dwarf, compact, yellow flowers followed by red berries which hang on during winter. Brilliant Fall color. Makes good low natural hedge. 75c

Birch Cut Leaved Weeping—White bark, cut foliage, pendent branches, very ornamental. 4-5 ft.\$2.00

Crab Apple—Bectle's double flowering crab. A small tree with very double pink flowers like small roses, fragrant. \$1.00 and \$1.50

Cotoneaster Horizontalis. Deciduous, with heavy crop red berries in winter; sprawling. Good for rock work, edging, or along outside of shrubbery groups.50c and \$1.00

Cotoneaster Simonsii. Tall, bushy plants. Bright red berries in winter. 75c

Deutzia Gracillis—Dwarf with masses of small white flowers during spring, very desirable.75c

Hydrangea Otaska — This is the variety that is used extensively for out-door planting, producing immense panicles of pink or blue flowers. We have both colors.75c

Hydrangea — Oak leaved. Has large panicles of white flowers in late summer. Leaves similar to an oak leaf and wonderfully colored in the fall. 75c

Kerria Japonica—Globe Flower. A tall growing shrub with double yellow flowers and bright green wood. 75c

Philadelphus—Mock Orange. Coronarius. Common Mockorange. Attains 10 feet if not trimmed, large single white flowers, fragrant.60c

THE LANGLOIS FLORAL GARDEN, VANCOUVER, WASH.

Spiraea Salicifolia — Much like *S. Van Houttei* in habit and flowers, leaves willow like and stay green much longer than any other variety of *Spiraea*. 60c

Spiraea Thunbergi—Attains 2 to 4 feet, early, pure white flowers, fine light green foliage. Attractive at all times. 60c

Spiraea Van Houttei—Bridal wreath. Covered with pure white flowers in spring, gracefully arching branches. One of the best shrubs for any purpose. Very popular and desirable. 60c

Wyiegelia Candida — White fading to pink. 50c

VINES

Clematis Paniculata—Small flowered, very profuse bloomer and strong grower. The vine dies down in winter. 50c and 75c each

Euonumus Radicans—See evergreen shrubs.

Ivy—English. Evergreen, clings to walls by ariel rootlets. 50c

Wistaria Multijuta—Japanese flowers two weeks later than Chinese. Large racemes violet to violet-blue. One year grafts. \$1.00

CANNAS

Our prices on cannas are for strong plants from pots. We do not sell dry roots as they are not satisfactory in this country. Plants from 3-inch pots, 15c each, \$1.50 per doz. From 4-inch pots, 25c each, \$2.50 per doz. Ready May 15th.

Hungaria — The best pink canna, very compact, somewhat dwarf.

King Humbert—Bronze leaves with red flowers.

Wintzel's Collossal — Green leaves, very large red flowers.

Yellow King Hubert—Green leaves, yellow flowers spotted red.

Cannas require full sun, a rich soil and plenty of water.

PANSY PLANTS

From March 15th to June 1st we have a famous strain of pansy plants in full bloom. The flowers are of large size and many rich colors. The plants have been wintered outside. 50c per doz. Selected plants with extra large flowers, 60c and 75c per doz.

Small plants the same as the above, not in bloom. These small plants will be in fine bloom for Decoration Day. Ready April 15th, 25c per doz. 100 for \$2.00 postpaid.

We are always glad to give any information we can that will assist you in getting the utmost from your plantings. We try to give prompt attention to letters of inquiry but ask, as a favor, that as few as possible be sent during April and May at which time we are very busy with other work.

You are cordially invited to visit our garden during the blooming season. We try to keep in the march of progress by adding new varieties of proven merit and have many kinds growing on our grounds of which we have too few to catalogue.

ASK FOR FALL CATALOGUE

of Iris, Peonies, Poppies, Tulips, Narcissus, Hyacinths, etc.

(Page 21)

DAHLIA ASSORTMENTS

Make your own choice of varieties, six or more kinds at the price of five. Simply deduct one-sixth from total amount.

*It's satisfaction
we sell."*
